

Manufacturing Solutions

The right technology to help manufacturers succeed.

Tel # 866.825.8382

www.ValuTrack.com

Integrate powerful RF data, printing, and RFID into your manufacturing operation. Whether you want to automate a paper-based system, upgrade existing technology, introduce wireless networking, increase data throughput, or extend your ERP system, ValuTrack is your single source for help.

Manufacturing Execution Systems (MES)

Mercury provides Work in Process Management and Manufacturing Intelligence far beyond traditional MES solutions. Mercury WMAS® provides Mistake Proofing, Procedure Enforcement, Data Collection, and Analysis for your process.

Workflow Automation

Boost efficiency and quality control with workflow automation. Ensure compliance, implement lean principles while adding just-in-sequencing capabilities – know where your goods are at any point along the supply chain.

Industrial Ethernet Infrastructure

Moxa delivers cutting edge industrial networking, computing and automation solutions tailored to the manufacturing sector.

Warehouse Management System

We have helped companies across industries implement warehouse management systems that increase accuracy, reduce labor costs and improve customer service.

Automated Labeling

Improve productivity and reduce costs by integrating an automated printer applicator into your industrial environment.

Plant & Warehouse Communications

Gain the power of seamless communication, connecting workers clearly and safely no matter where they are, even in the loudest plants.

Barcode Label Design & Management

Looking for powerful, easy to use label design software for enterprise or standalone applications? Our solutions meet the needs of the most experienced label designer / manager.

Device Management Applications

Does your organization have an enterprise mobility management (EMM) strategy? We offer leading-edge solutions that will save your business time and money.

Manufacturing Solutions

Intelligent Solutions. Flawless Fulfillment. Dynamic Service.

www.ValuTrack.com

We're helping manufacturers succeed with technology solutions that connect them to the real-time enterprise asset intelligence they need to shave off seconds, drive down defects and work more safely. All so they can keep doing what will always stand them apart: Building Efficiency. Growing Economies.

RFID Tracking

RFID handheld readers, fixed readers, printers and antennas, ValuTrack has the tools, experience and know-how to bring the visibility and insight needed into your business.

Industrial Wireless

Trust ValuTrack to handle your networking challenge. From harsh environments to remote locations, we ensure fast, secure and reliable connectivity to help you get the job done.

Barcode/RFID Labels & Printers

Zebra industrial printers offer unparalleled barcode, text and graphics print quality on labels, invoices and packing slips.

Video Security & Visitor Management Software

IP Security Cameras to protect your business and employees. Visitor management software allows you to manage visitors professionally and securely.

Industrial Monitors

Industrial Monitors. Hope Industrial delivers rugged industrial monitors and touchscreens for the factory floor through value added partners like ValuTrack.

GHS Labeling

Rely on ValuTrack's extensive product knowledge and application expertise to determine the best configuration of labels, printers and supplies to meet your GHS requirements.

Unified Communications

Connect your disparate networks to WAVE's PTT platform, so you can communicate between smartphones, radios, computers or landlines.

Terminal Emulation

Ensure the integrity and security of your mission-critical mobile applications on any mobile device. Virtually eliminate all dropped sessions with high speed, secure application access.
