

SOTI CONNECT

KEEP PRINTING, KEEP WORKING

PRINTER MANAGEMENT MADE EASY

SOTI Connect provides enterprise-grade management for your organization's mobile and industrial printers throughout their complete lifecycle.

From a single point of control, you can manage almost any make and model of printer to speed up deployment, provide stronger security and reduce overall total cost of ownership (TCO).

SUPPORT FOR NUMEROUS PRINTER MAKES AND MODELS

Set up SOTI Connect in any configuration you want with printer data and actions accessible where and how you need them. SOTI Connect can easily manage a mix of printers from different original equipment manufacturers (OEMs) for your business-critical printing needs. SOTI Connect includes a wide array of printer properties to view, actions to take and allows you to customize how this information is presented.

BE PROACTIVE

Monitor printer health and use automations to detect and correct issues the moment they occur instead of waiting for someone to tell you about a printer issue.

BE VERSATILE

Collect valuable insights on print head temperature, print cycles, battery levels, memory usage and more. Make smarter, data-driven decisions regarding your printer investments.

BE SECURE

Protect against risks by enforcing password policies, generating and deploying security certificates and monitoring the physical location and movement of printers.

GET MORE VALUE FROM YOUR BUSINESS-CRITICAL PRINTERS

SOTI Connect allows organizations to automate every aspect of printer deployments – no matter where they are located – to identify and address issues before they occur.

SPEED UP THE TIME IT TAKES TO DEPLOY AND MANAGE YOUR PRINTERS

- Get printing in minutes at a lower cost by shipping printers directly to their end destination and allowing SOTI Connect to automatically discover and configure them.
- Identify issues before they occur with SOTI Connect's self-reporting capabilities. Eliminate small printer problems before they become big, costly and time-consuming.
- Better manage your printer assets and ensure all your printers are visible and accounted for in real-time without having to manually count them. When you know exactly how many printers you have, you can make better, smarter decisions regarding your printer fleet.

REDUCE THE TIME AND EFFORT ASSOCIATED WITH RESOLVING PRINTER DOWNTIME

- Remotely monitor your printers no matter where they are and quickly troubleshoot issues or take proactive actions in a few clicks with SOTI Connect.
- Enforce security standards to ensure your business-critical printers are never forgotten and always protected against potentially devastating security threats.
- Monitor consumable elements such as ink levels, paper levels and printer heads to ensure they are proactively replaced and do not run out completely, bringing operations to a halt while being replenished.

COLLECT PRINTER DATA AND TAKE ACTION WITH SOTI CONNECT

CUSTOMIZE HOW YOU SEE YOUR PRINTERS

Use the SOTI Connect Visualization Design Studio to build custom dashboards with visually-driven, easy-to-access information using an intuitive drag-and-drop interface.

ADVANCED DATA COLLECTION

Develop a deeper understanding of printer performance with access to key metrics such as battery level, memory usage, print head temperature, printing speed and more.

TAKE ACTIONS QUICKLY

Check in with printers, create SOTI XSight incident tickets, deploy certificates, reset and reboot printers – take any action you need to keep printers printing and keep workers working in just a few clicks.

RECOMMENDED SYSTEM REQUIREMENTS

Visit soti.net/connectrequirements to view the latest general system requirements for SOTI Connect. Requirements may differ by version of SOTI Connect.

SUPPORTED PRINTERS

Visit soti.net/connectprinters to view all printer makes and models supported by SOTI Connect.

SOTI ONE PLATFORM INTEGRATION

SOTI XSIGHT

Automatically generate SOTI XSight tickets from automation rules when issues are detected.

SOTI SNAP

Rapidly create apps that digitize business processes and boost worker productivity.

SOTI IDENTITY

Single sign-on (SSO) support through SOTI Identity.

SOTI PULSE

View manufacturer details about printers through integration with SOTI Pulse.
