

# Managed Security Services (MSS)

Network security is constantly changing. Get fully customized protection where you need it.

## Today's dynamic IT environment creates unprecedented opportunities for threat actors including:

- Bigger attack surface driven by remote work
- Greater cybersecurity risk due to attackers increase in sophistication
- Challenges of keeping IT security teams up to date with threat intelligence, training, and resources

## Prevent Tomorrow's Threats

Timely upgrades, patches, configuration and policy changes reduce exposure.

## Accelerate Response Time

Faster mitigation by actioning runbook response on client's behalf.

## Know Potential Vulnerabilities

Internal and external scans discover connected devices and reveal vulnerabilities.

## Service Components

- Fully customized cybersecurity solutions
- Flexible vulnerability scans, security appliance, Wi-Fi and network edge management
- Tailored and integrated monitor-manage-maintain approach
- Event management operated by a 24x7x365 SOC for true peace-of-mind
- Network visibility with real-time logs and reporting
- State-of-the-art Unified Threat Management (UTM) devices protecting from security threats

# How Our Managed Security Services Work

## Safeguard your Organization using the Controls and Best Practices of MSS.

- **Step One: Visibility**

Vulnerability Management Services (VMS) provide internal and external scans to identify and prioritize gaps in your defense layers.

- **Step Two: Preparedness**

Managed Gateway deploys the latest technology, configuration and policies, and provides tailored runbooks to counteract any new threats.

- **Step Three: Response**

Nuspire has 24x7x365 monitoring, management and mitigation. The bad guys never take a break – so neither do we.

## Can your team protect all areas of your company's network?

Learn how others have implemented an MSS solution from ValuTrack and Nuspire to help with the daily securing of gateway, edge devices, and network devices.

## Why Choose Nuspire and ValuTrack?

- **Support and view multiple technologies on a single unified threat management platform**
- **Gain resources who triage threats, tune technology and optimize processes**
- **Maintain 400+ days of logs, enabling investigation of long-dwelling intruders**

Nuspire is a leading managed security services provider (MSSP) that is revolutionizing the cybersecurity experience by taking an optimistic and people first approach. Our deep bench of cybersecurity experts, world-class threat intelligence and 24x7 security operations centers (SOCs) detect, respond and remediate advanced cyber threats. We offer comprehensive services that combine award-winning threat detection with superior response capabilities to provide end-to-end protection across the gateway, network and endpoint ecosystem. Our client base spans thousands of enterprises of all sizes, across multiple industries, and achieves the greatest risk reduction per cyber-dollar spent. At Nuspire, we are laser focused on delivering an extraordinary cybersecurity experience that exceeds client expectations.
