

AIDC Software Applications

Asset Tracking & Inventory Control
Warehouse Management Systems (WMS)
Enterprise Label Design, Printing and Management
Real-Time Location Systems (RTLS)
Mobile Device Management
Work in Process (WIP) Tracking
RFID Kit Verification, Serial # Tracking & Management
Voice Picking
Terminal Emulation

Barcode Scanners

Handheld Scanners
Ultra-Rugged Scanners
Presentation Scanners
Wearable Scanners
Fixed Mount Scanners
Single-Plane and Multi-Plane Scanners
Kiosks
Zone 1/21 & Class 1 Div 1/Zone 0

Barcode Printers

Industrial Printers
Desktop Printers
Mobile Printers
RFID Printers
Color Label Printers
Receipt Printers
Wristband Printers

Labels & Printing Supplies

Barcode Labels & Tags
RFID Labels & Tags
Custom Labels
Printer Ribbon
Hospital Bracelets & Wristbands
Receipt Paper
Electronic Shelf Labels
Hospitality & Event Wristbands
Metal Labels & Tags
Magnetic Rack Labels & Warehouse Signage
Color Printer Ink

Mobile Computers & Tablets

Handheld Computers
Wearable Computers
Vehicle Mounted Computers
Rugged Tablets

RFID Hardware

Handheld RFID Readers
Fixed RFID Readers
RFID Printers
RFID Portals
RFID Antennas

Location Technologies

Bluetooth Low Energy Devices
Ultra Wideband and Cellular Tracking
RTLS Technologies

Barcode Verification

Linear, Portable Linear, Optic Verifiers
Wide Angle, Desktop Verifiers
Verifier Calibration & Repair

Temperature Tracking

Electronic Temperature Sensors
Medication Temperature Indicators
Food Temperature Indicators
Shipment Temperature Indicators
Printable Temperature Indicators

Enterprise Solutions & Services

RFID Systems Design & Deployment
Printer and Label Management
Supply Chain Workflow Design, Consultations, and Site Surveys
Custom Application Development
Nationwide Printer, Scanner, and Mobile Computer Repair
Service Contract Management

Cybersecurity

Endpoint Security & Maintenance
Data Protection
Identity Protection
Vulnerability Management
Incident Reponse
Asset Inventory
Secure Access
Email Security
Cloud Security
Threat and Intelligence Hunting

MSSP Services

AI-Powered Intelligence in Cybersecurity

Comprehensive Knowledge Integration
Streamlined Operations and Enhanced Productivity
Secure and Compliant by Design

Managed Detection & Response (MDR)

Detect and respond to attacks in real-time 24x7x365.

Endpoint Detection & Response (EDR)

Secure every device on network and remediate threats.

Extended Detection and Response (XDR)

Monitor data from networks, cloud workloads, servers, email, and more.

Managed Security Services

Protect IT, OT, and XIoT assets across your entire network.
Managed SIEM

Cybersecurity Consulting Services

vCISO & Incident readiness to threat modeling and security posture assessments.
Governance, Risk Management and Compliance (GRC)

MSP Services

MSP NOC/SOC Services

Infrastructure and Network Upgrades
Endpoint Hardware and Software Upgrades
Staffing: Virtual CIO, CTO and CISO Services
Cybersecurity and Vulnerability Risk Assessments
24x7 Remote Monitoring and Maintenance of Network
Firewalls, Switches and Access Points.
24x7 or 8x5 Helpdesk Support with AI Based SOC Backed
Anti-Virus and SIEM Solutions.
24x7 Remote Monitoring and Maintenance of Servers and Workstations.
Penetration Testing
Direct to Cloud backup
Disaster Recovery and Business Continuity Planning

Endpoint Monitoring/Maintenance

Automated Patching
Proactive Maintenance and Monitoring
Asset Reporting

Network Monitoring/Maintenance

Proactive Network Monitoring
Configuration Management
Remote Administration
Device Firmware Updating

Endpoint Guardian

AV/Anti-malware
Endpoint Backup
Web Security

User Guardian

Dark Web Monitoring and Anti-Phishing
SaaS Application Management
SaaS Event Alerting & Remediation

Network Infrastructure

Switches
Routers
Wireless Access Points
Firewalls
4G/5G Internet

Digital Workplace

Modern Desktops, PCs, Monitors & Workstations
Computer Parts & Accessories
Color Ink Jet Printers
IT Communication & Collaboration
Digital Signage
Modern Device Management
Virtual Desktop Infrastructure (VDI)

Modern Infrastructure

Data Center Modernization
Cloud Infrastructure
Edge Computing
Data Storage
Memory/SSD
SD-WAN
UCaaS
Zero Trust Access (ZTA)

Physical Security Infrastructure

Security Cameras and Surveillance
Video Management Systems
Access Control Systems
Intrusion and Alarm Systems
